384 LED / 16.4 ft TAPE LIGHT

Certified LED Lights®

STANDARD

APPLICATIONS

This COB tape series creates a seamless line of light. This all new strip design uses flip chip LED's to eliminate LED dots. This new chip-on-board technology improves light quality but also improves the thermal management and flexibility of the strip. These COB strips are packed smaller and weigh less than the bulkier 5050 LED's. They are available in 3K, 4K and 5K
