

APPLICATIONS

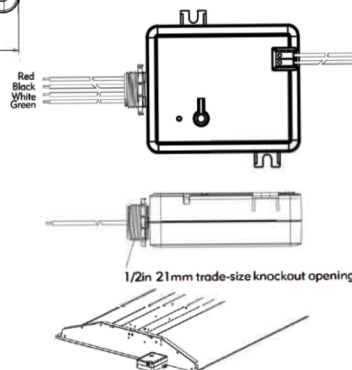

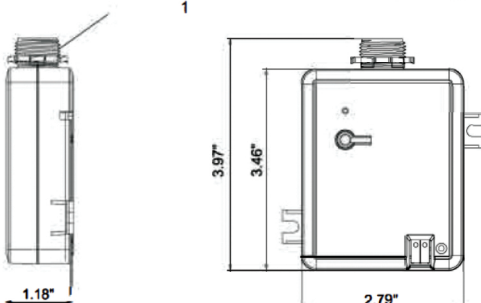

This RF power pack uses radio frequency to wirelessly control 0-10V LED light fixtures. Receives input from compatible RF wireless wall switch dimmer, for a convenient and cost saving control system. Allows multiple lights to be controlled from one or more switches.

FEATURES

- * One dimming module can be linked with 5 RF manual control dimmers
- * Mounts through standard knockout on electrical box without moving any wire
- * Standby power: 0.6W
- * Max current: 10A
- * 1200W max load
- * RF range: 30 meter/ 98.4 feet

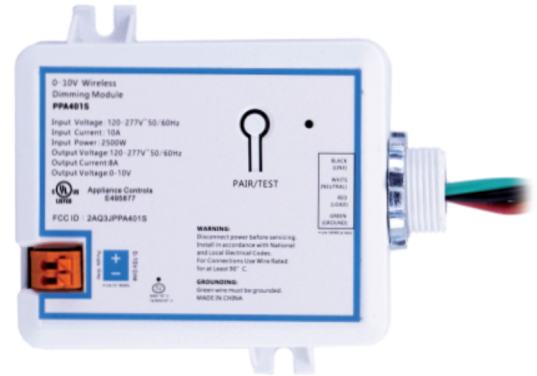

DIMENSIONS

1/2" in 21mm trade-size knockout opening

ORDERING INFORMATION

Part #	RF Frequency band	Voltage	Watt
PPA4013SV2	433 Mhz	AC 100-277V -60Hz	1200W

WARRANTY & DETAILS

- * UL & FCC certified
- * Input Rating: 100-277V , 50-60Hz
- * 1200W max load
- * Frequency band: 443.92 Mhz
- * 3 year warranty
